Valeo Laboratories - Safety instructions

When using our e-liquids, the following information should be observed at all times:
Electronic cigarettes with nicotine ingestion. This does not alter the fact that nicotine intake by means of electronic cigarettes is a proven healthier alternative to conventional tobacco cigarettes. Under no circumstances should nicotine-based cartridges be used by pregnant or breastfeeding women, children, non-smokers or occasional smokers. The use of nicotine-based cartridges is not recommended for persons with high blood pressure, angina pectoris (coronary heart disease), chronic heart failure, cerebrovascular disease, vascular occlusions, hyperthyroidism (thyroid hyperfunction), diabetes mellitus, stomach/intestinal ulcers, and liver or kidney damage.
Keep away from pets. Store in a cool, dark place. In the event of an accident, seek medical help immediately. In the event of an accident, seek medical help immediately. This product should not be used where there is a known allergy to the active ingredient or to one of the other ingredients contained in the liquid.
